

Addendum #5 Solid Waste Collection Requests for Proposals Job #01-17-PW

Notices: The RFP for Solid Waste Collection is hereby amended with the modifications listed below. Please remember to acknowledge receipt of this Addendum on the appropriate place on your Form 5, Certification of Proposal.

This addendum is intended to address the City obligation to provide an estimated value of steel container inventory. This information will not be provided and, proposers may estimate the sales price based on container counts as provided in Appendix B and the pricing inference identified in the RFP.

1.2 EXISTING COLLECTION SYSTEM

*The current contractor uses its own carts, detachable containers and drop-boxes. At the end of the current contract, all contractor-supplied carts, at the City's option, revert to City ownership without further compensation to the Contractor and on a fully assignable basis. The City, at its option, also may purchase or assign the right to purchase Waste Management's in place inventory of Detachable and Drop-Box containers. **Proposers should estimate at a sales price equal to fifty percent (50%) of the average new price for each Container based on the average price from three (3) manufacturers.** ~~The City will ascertain the value of steel containers to the best of its ability and will issue that estimation via RFP addendum.~~*

Addendum issued on March 13, 2017
